

ZOO FIELD TRIP

SEPTEMBER 9, 2024
IA FRESHMAN

Why Zoo Atlanta?

The visit to the zoo will offer students a unique opportunity to observe a variety of animal species and their habitats, enhancing their understanding of ecological relationships, biological processes, and the diversity of biomes. This cross-curricular activity aims to deepen students' knowledge through real-world applications and observations.

The GT Block and Biology classes are currently exploring units focused on biologically inspired designs and terrariums. To support this curriculum, we will be visiting the Atlanta Zoo. This visit will provide students with a unique opportunity to observe a wide range of animal species and their habitats, enriching their understanding of ecological relationships, biological processes, and biome diversity. This cross-curricular activity aims to deepen students' knowledge through real-world applications and observations.
