

The topic of the Phoenix Project is Food Scarcity. We hope that this experience provides students with an opportunity to learn about the challenges around providing adequate food to those in need as well as a chance to make a difference in the lives of others.

Here is the schedule for the week:

WEEKLY SCHEDULE FOR THE PHOENIX PROJECT WEEK (NOV 18-22)

Students will be working on collaborative projects in their classes and in their camps that week. Aspects of the projects will be graded according to guidelines provided by the student's content teachers. During camp time, students will be with their 4th or 5th period teachers. (Students who have virtual periods will be assigned to a teacher for their camp). During the seminars, students will have opportunities to learn about the issues surrounding food scarcity from a variety of guest speakers.

On Friday, students will depart midday as indicated on the schedule above. We encourage all students to attend the entire week. Although makeup assignments will be provided for students who are out sick, they will not be able to gain the full experience of the week at a different time.

There will be some field trips running before Project Week to help students explore this topic and gather more information before engaging during the week. Students should keep a look out on IA Student Teams for this opportunities.

If you have any questions or concerns, please feel free to reach out to your child's assistant principal.
