

# Virtual Creativity Days

**JUNE 10TH**

**JUNE 17TH**

**JUNE 24TH**

This summer, Instructional Technology will host three virtual creativity days for students. These days are designed to be a fun way for students to engage in creative thinking as they design graphics, videos, and web pages using Adobe Express for grades 3rd- 6th and Canva for grades 7th -12th. Each day will consist of three sessions centered around a daily theme. Students may participate in one, two, or all sessions on a given day. Separate sessions will be held for rising 3rd-6th grade students and rising 7th-12th grade students.

Students will participate in these sessions through Microsoft Teams. Links to participate in the Teams meetings will be sent to participants after they register. Space is limited, so register today!
