

Tutoring by the students, for the students.

Do you ever need extra help outside of class, only to find no one around to ask? Whether you're stuck on homework, prepping for a test, or just want to get ahead, you shouldn't have to go looking for someone who can help.

That's why Mu Alpha Theta is piloting **ia-mualphatheta.org**, a tutoring site run by IA students. Tutors are classmates who have already taken the course, and chapter officers handle the scheduling.

Need help? Sign up, request help, or reserve a tutor, and show up knowing someone is going to be there for you to help you.

Want to tutor? Post the sessions you can cover. Your service hours are logged and approved right in the app.

Use it alongside your teachers' tutoring hours. Sometimes a classmate's explanation is the one that clicks.

Contact Ms. Pitrak (380 Hubs during 4th or 5th lunch) for more information.
